THE FRENCH SPOLIATION CLAIMS.—The question of these claime, meds escred by time and want of to see, a somewhat fairer prospect than usual of a favorable detarminetion. The Washington correspondent of the New York Commercial Advertiser

The French spoliation claims have, for the thirty-sixth time, base examined by a committee of Congrue, and Governor Corwin, as chairman of the Housa Committee on Foreign Affairs, has been directed to report a hill to provide for their accertainment, and for the pro-rata payment of them, to the amount of five millions of dollars.

The bill provides for the establishment of a Board of three Commissioners, with a clerk, a messenger, and an attorney to defend the United States egainst freud. The five millions to be paid, pro rula, on their award, is to he in five per cent. stock.

Of the thirty-six favorable reports on the payment of these claims, twenty-twe have been made in the Senate, including able arguments by Livingston, Crittenden, Choate, and Everett. Various hills providing for the payment have been passed in the Senate cight times. Twice they have also been passed by the Houso of Representatives, and vetoed by President Poke and by President Pierce.

It is generally believed the 'the hill Introduced by Gov. Corwin will be pussed by the Senain end the Honse, and them interested are confident that Mr. Buchenan will sign it.

We truet this belief is well founded. The mea-

COURT HOUSE COMMISSIONERS .- We publish this morning a bill creating the Board of Commissioners of the Louisville Court House, to consist of the Mayor of the city, the Jailor of Jeffersen county, the County Judge, and other officers who keep their nffices theroin. They are to elect a secretary, janitor, and other necessary attecdants, keep the building properly warmed, cleaned, and lighted, and apportion the expense thereof one-third to the State, one-third to the city, elevan per cent. to Jefferson county, five per cant. each to the clerks of the Chancery, Circuit, and County Courts, four per cent. to the Commissioner of the Chencery Court two per cent, to the Marshal of the same court, and two per cont. to the Sheriff. The Janitor has all the powers of a policeman delegated to him. This is a very important bill, and we now hope our City Conneil will make a liberal appropriation towards the decoration of the grounds and enclosing them with a must lron railing. The Court House, withont any great outlay, can be made an ornament to onr city, and, while wn have so many beantiful private recidences, it is remarkable that co little tastn has been displayed in the decoretion of our public places.
